Objective:

To leverage my expertise in Full-Stack Development, specializing in the MERN stack and Laravel, along with strong proficiency in TypeScript and Google Cloud Storage, to contribute to innovative, high-impact projects within a dynamic organization, while continuously enhancing my technical skills and driving organizational growth.

Experience:

❖ **Software Engineer | Procellence Technology (Remote)**

August 2024 – Present

Specializing in full-stack development with expertise in Node.js, Express.js, and MongoDB, focusing on designing and implementing scalable web and mobile applications. Proficient in TypeScript, Google Cloud Storage, and NoSQL databases, delivering secure and efficient solutions. Experienced in working with Google Cloud-based APIs for Flutter applications, maintaining backends, and providing optimized solutions with modern coding practices. Skilled in designing MongoDB aggregation pipelines and software architecture to create robust, efficient systems. Actively contributing to innovative projects while continuously advancing technical skills in cloud-based technologies and modern development frameworks.

❖ **Software Developer | AOF Engineering Systems, LLC (Remote)**

April 2023 – September 2023

Developed backend solutions with Laravel and MySQL, implemented Ajax for asynchronous functionality, integrated Google Calendar API and FullCalendar for dynamic scheduling, and designed CSV data import functionalities to enhance data storage and processing.

Education:

❖ **Bachelor of Technology in Computer Science and Engineering**
Maulana Abul Kalam Azad University of Technology (MAKAUT)
Seacom Engineering College, 2020 – 2024

❖ **Higher Secondary**
West Bengal State Council of Technical & Vocational Education and Skill Development
Champadanga Bijoy Krishnana U.B Vidyalaya, 2018 – 2020

Skills:

❖ **Programming Languages:** Java, JavaScript, TypeScript, C
❖ **Front-End Development:** React.js, Bootstrap 5, HTML, CSS
❖ **Back-End Development:** Node.js, Express
❖ **Full-Stack Development:** MERN Stack (MongoDB, Express.js, React.js, Node.js), Laravel
❖ **Databases:** MongoDB, MySQL
❖ **Other Technologies:** MVC Model, Google Cloud Storage, SQL & NoSQL Databases, Mobile & Web App Development
